## INDEPENDENT AUDITOR'S REPORT

Borough Council  
Borough of Clarion  
Clarion, Pennsylvania

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the BOROUGH OF CLARION, PENNSYLVANIA, ("Borough") as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the Borough's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Borough, as of December 31, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Emphasis of Matter**

As discussed in Note 13 to the financial statements, subsequent events may have a significant impact on the operations of the Borough. Management has determined that it is not possible to predict the eventual outcome of the subsequent event. The accompanying financial statements do not include any adjustments related to the subsequent event. Our opinion is not modified with respect to this matter.

## **Other Matters**

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedules of revenues, expenditures, and changes in fund balance budget to actual comparison, employees and police retirement fund schedule of borough's contributions and investment return for the last ten years, employees and police retirement fund schedules of changes in the net pension liability and related ratios information on pages 4 through 14 and 53 through 60 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Borough's basic financial statements. The Other Supplementary Information on pages 62 through 65 is not a required part of the financial statements. The Other Supplementary Information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The Other Supplementary Information has been subjected to the auditing procedures applied by us in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Other Supplementary Information is fairly stated in all material respects in relation to the basic financial statements as a whole.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the financial statements for the Borough of Clarion ("Borough") presents a descriptive overview and narrative of the Borough's financial performance for the fiscal year ended December 31, 2019. Prior year comparative information is presented.

### **FINANCIAL HIGHLIGHTS**

- The Borough's total Net Position at the end of 2019 was \$3,904,706.
- The General Fund Unassigned Fund Balance was \$554,159 at the end of 2019.
- Total Governmental Funds Revenues, including Loan Proceeds, of \$3,428,257 were collected in 2019, of which \$1,679,244 was expended for Public Safety and Public Works.

### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This report consists of the following four parts:

- Management's discussion and analysis (this section)
- Basic financial statements (including notes)
- Required supplementary information
- Other supplemental information

Management's discussion and analysis is a guide to reading the financial statements and provides related information to help the reader better understand the Borough's government. The basic financial statements include notes that provide additional information essential to a full understanding of the financial data provided in the government-wide and fund financial statements. Required supplementary information is provided on the Borough's Police Pension and General Employees Pension Trust Funds and budget to actual figures for the General Fund, Recreation Fund, Fire Equipment Fund and the Liquid Fuels Fund.

The basic financial statements present two different views of the Borough.

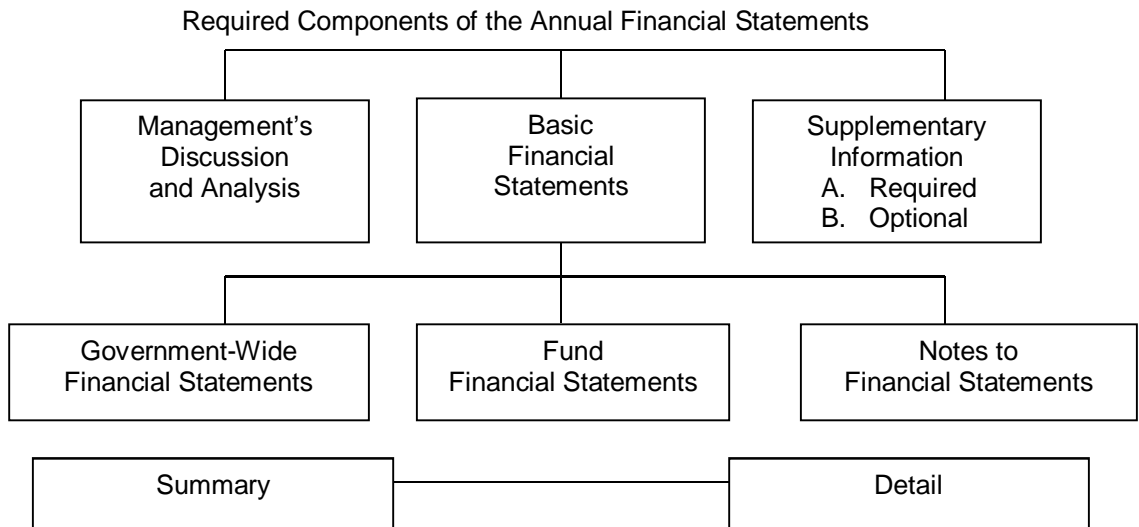

- *Government-wide financial statements*, the first two statements, provide information about the Borough's overall financial status.
- *Fund financial statements*, the remaining statements, focus on individual parts of the Borough's government. They provide more detail on operations than the government-wide statements. There are two types of fund financial statements:
  - *Governmental funds statements* show how general government services such as public safety, public works for highways and streets, and culture and recreation were financed in the short term, as well as what remains for future spending.
  - *Fiduciary funds statements* reflect activities involving resources that are held by the Borough as a trustee or agent for the benefit of others, including employees of the Borough like the Police Pension Trust Fund. Fiduciary funds are not reflected in the government-wide statements because the resources cannot be used to support current programs.

## MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

### Government-Wide Financial Statements

Government-wide financial statements report information about the Borough as a whole using accounting methods similar to those used by private-sector companies.

- The statement of net position includes all the Borough's assets and liabilities, except fiduciary funds, with the difference between the two reported as net position. This statement serves a purpose similar to that of the balance sheet of a private-sector business.
- The statement of activities focuses on how the Borough's net position changed during the year. Because it separates program revenue (revenue generated by specific programs through charges for services, grants and contributions) from general revenue (revenue provided by taxes and other sources not tied to a particular program), it shows to what extent each program has to rely on local taxes for funding.

All changes to net position are reported using the accrual method of accounting, which requires that revenues be reported when they are earned and expenses be reported when the goods and/or services are received, regardless of when cash is received or paid.

Net position is one way to measure the Borough's financial position. Over time, increases or decreases in the Borough's net position are one indicator of whether the Borough's financial position is improving or deteriorating. However, other non-financial factors such as changes in the Borough's real property tax base and general economic conditions must be considered to assess the overall position of the Borough.

There is only one type of category of activities for the primary government:

- *Governmental activities* include the Borough's basic services such as general government, public safety, public works for highways and streets, community development, health and welfare and culture and recreation. Property taxes and state and federal grants finance most of these activities.

Net position of the governmental activities differ from the governmental fund balances because governmental fund level statements only report transactions using or providing current financial resources. Also, capital assets are reported as expenditures when financial resources (money) are expended to purchase or build said assets. Likewise, the financial resources that may have been borrowed are considered revenue when they are received. The principal and interest payments are both considered expenditures when paid. Depreciation is not calculated as it does not provide or reduce current financial resources. Finally, capital assets and long-term debt do not affect fund balances.

Government wide statements are reported using an economic resources measurement focus and full accrual basis of accounting that involves the following steps to format the statement of Net Position:

- Capitalize current outlays for capital assets
- Report long-term debt as a liability
- Depreciate capital assets and allocate the depreciation to the proper program/activities
- Calculate revenue and expense using the economic resources measurement focus and the accrual basis of accounting
- Allocate net position balances as follows:
  - Net investment in capital assets
  - Restricted Net position is Net position with constraints placed on the use by external sources (creditors, grantors, contributors, or laws or regulations of governments) or imposed by law through constitutional provisions or enabling legislation
  - Unrestricted Net position is Net position that does not meet any of the above restrictions

**MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)****Fund Financial Statements**

Fund financial statements provide more detailed information on the Borough's most significant funds, not the Borough as a whole. Funds are accounting devices, i.e., a group of related accounts, the Borough uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by state law. Other funds are established to control and manage resources designated for specific purposes. Fund financial statements are reported using current financial resources and modified accrual accounting established by the Government Accounting Standards Board (GASB) for governments.

The Borough has two kinds of funds:

- *Governmental funds* include most of the Borough's basic services and focus on: (1) the flow in and out of cash and other financial assets that can readily be converted into cash, and: (2) the balances left at year-end that are available for spending. These funds are reported using the modified accrual accounting basis, and a current financial resources measurement focus. Consequently, the governmental funds statements provide a detailed short-term view that helps determine the financial resources available in the near future to finance the Borough's programs.

The relationship between governmental activities (reported in the statement of Net Position and the statement of activities) and governmental funds is described in a reconciliation that follows the governmental fund financial statements.

The Borough adopts an annual budget for the General Fund, Liquid Fuel (Highway Aid) Fund, Street Light Fund, Recreation Fund, Fire Equipment Fund, Library Fund, Recycling Fund and the Pension Fund. Budgetary comparisons of the Borough's General Fund, Liquid Fuel (Highway Aid) Fund, Recreation Fund, and Fire Equipment Fund are presented as required supplementary information.

- *Fiduciary funds* are funds for which the Borough is the trustee or fiduciary. These include the Police Pension Plan and the Non Uniformed Pension Plan. The Borough is responsible to ensure the assets reported in these funds are used for their intended purposes. This fiduciary activity is reported in a separate statement of fiduciary Net Position and a statement of changes in fiduciary Net Position. These funds are excluded from the Borough's government-wide financial statements because the Borough cannot use these assets to finance its operations.

**MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)**

**GOVERNMENT-WIDE FINANCIAL STATEMENTS**

**Net Position**

The Borough's total assets and deferred outflows was \$5,428,412 at December 31, 2019. Of this amount, \$2,115,464 was capital assets at December 31, 2019.

GASB No. 34 requires that all capital assets, including infrastructure, be valued and reported within the governmental activities column of the government-wide financial statements, but allowed infrastructure to be added over several years.

The loan and note payable balance as of December 31, 2019 is \$561,189.

## FUND FINANCIAL STATEMENTS

### GOVERNMENTAL FUNDS

The Borough uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources available for spending. Such information is useful in assessing the Borough's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the Borough's net resources available for spending at the end of the year.

The Borough's governmental funds include the general fund and special revenue funds. The general fund is the chief operating fund for the Borough. Special revenue funds are restricted to specific legislated use. The major funds are shown on the statement of revenues, expenditures and changes in fund balances in the financial statements.

Taxes are one of the Borough's most significant revenue sources, accounting for 48.5% of 2019 Governmental revenues. Taxes increased in 2019 by \$108,068. In 2019, Real Estate Tax increased by \$45,994 and Act 511 taxes increased by \$62,074. The 2019 mill rate remained at 22.000 mills in 2019. The General Fund mill rate remained the same at 17.095. The Street Light fund remained at 1.100 mills. The Recreation Fund remained the same at 0.500 mills. The Library Fund mill rate remained the same at 0.975 mills. The Fire Equipment Fund mill rate remained the same at 1.630 mills. The Recycling Fund mill rate remained the same at 0.700 mills. Intergovernmental revenues increased in 2019 by \$604,707, a 155.9% increase. The Borough received a Loan/Grant program with Penn Vest for the Borough's storm water projects. The Borough received \$855,317 in grant funding. Licenses and permits decreased in 2019 by \$49,335, a 19.4% decrease. The Borough had no sale of Capital Assets in 2019. The Borough's loan proceeds increased in 2019 by \$510,476. The increase was the Penn Vest Loan totaling \$477,783 storm-water projects and a loan for a Police vehicle in the amount of \$41,793.

**MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)**

Governmental fund revenues by source at December 31, 2018 and 2019 were as follows:

**Table A-8: Borough of Clarion  
Revenues, and Other Financing Sources, Governmental Funds**

Revenues:	2018	2019	Variance	Percentage of Change

Total revenues	\$ 2,630,652	\$ 5,104,785	\$ 2,474,133	94.1%

**GOVERNMENTAL FUND EXPENDITURES** increased 95.5%, or \$2,495,297 during 2019. The administration expenditures increased 18.6%, or \$43,857. This increase in 2019 was a result of additional staff, professional fees in legal and liability insurance. The Public Works program increased 7.6%, or \$41,487 from 2018. In 2019 Public Works worked on road projects within the Borough at a cost of \$90,492, an increase from 2018 of \$69,960. The CDBG program had expenditures of \$8,788, which was an increase from 2018 in the amount of \$5,386. Capital Project expenditures amounted to \$1,242,315 in 2019, an increase of \$1,065,843 from 2018; resulting from the setup of the Storm Water Authority and storm sewer projects within the Borough. Culture and Recreation expenditures increased \$74,328, or 89.4% from 2018. In 2019, the Library Fund expended \$100,144 an increase of \$60,113 due to improvements at the Library building. In 2019, the Recreation Fund had expenditures of \$57,358 and increase on park improvements of \$14,215 for the parks and pool program. Public Safety expenditures decreased \$9,715, or 0.9%. There were no major changes in expenditures regarding the Police and Planning departments from 2018 to 2019. The Fire Equipment Fund expenditures decreased in 2019 by \$10,059, or 13.8%. Public Safety expenditures alone account for 31.81% of all governmental fund expenditures. Public Works expenditures accounts for 17.14%, Administration expenditures account for 8.05%, and Culture & Recreation expenditures account for 4.59% of total governmental fund expenditures.

Governmental fund expenditures by function at December 31, 2018 and 2019 were as follows:

**MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)**
**GOVERNMENTAL FUND BALANCES**

Ending fund balances for Governmental Funds at December 31, 2019:

**Table A-10: Borough of Clarion  
Ending Fund Balances, Governmental Funds**

Funds	Governmental Funds
General Fund	\$ 615,951
Liquid Fuel Fund	131,762
Recreation Fund	165,261
Capital Projects	855,964
Fire Equipment Fund	77,164
Penn Vest Fund	48,070
Other Governmental Funds	<u>56,184</u>
Total	<u>\$ 1,950,356</u>

**Financial Highlights** – The 2019 General Fund revenues were over expenditures by \$48,765. The Other Financing Sources and Uses reported an increase of \$57,837. The General Fund in 2019 reported a net increase of \$106,602. The General Fund fund balance increased to \$615,951. This increase was due to the management of the Borough controlling expenses combined with the oversight of the Storm Water Authority on the Borough's storm water projects.

**Economic Conditions** – The 2019 assessed valuation totaled \$154,853,281, of which 74.21% (\$114,922,717) is non-taxable, and 25.79% (\$39,930,564) is taxable. The majority of the non-taxable property is owned by Clarion University. The Borough is limited with the amount of real estate tax received due to the university's non-exempt status. There is no growth potential within the Borough for industrial or commercial development.

**Next Year's Budget** – Borough Council's tax millage in the 2020 Budget remained at 22.000 mills. The 2020 mill rates for the various funds are: General Fund decreased from 17.095 to 16.945 mills, Street Lighting decreased from 1.100 mills to .950 mills, Fire Equipment Fund stayed the same at 1.630 mills, Library Fund remained the same at 0.975 mills, Recreation Fund stayed the same at 0.50 mills, and the Recycling Fund increased from 0.700 mills to 1.000 mills.

BOROUGH OF CLARION  
 RECONCILIATION OF THE STATEMENT OF REVENUE, EXPENDITURES, AND  
 CHANGES IN FUND BALANCES OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES  
 FOR THE YEAR ENDED DECEMBER 31, 2019

Amount reported for governmental activities in the Statement of  
 Activities are different because:

Net change in fund balances - total governmental funds \$ (2,689)

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which net capital outlay less retirement of assets was a net of \$1,019,455 less depreciation net of retirement of assets in the current period was \$187,436.

Net Capital Additions	1,019,455	
Net Depreciation	(187,426)	
Net Change in Capital Assets		832,029

Under the modified accrual basis of accounting used in governmental funds, revenues are not reported until they become available. In the statement of activities, however, revenues are recorded regardless of when financial resources are available. This is the change in unearned real estate tax revenue from 12/31/18 to 12/31/19.

(46,380)

Governmental funds do not report the changes in the Pension Expense:

(52,952)

The issuance of bonds and similar long-term debt provides current financial resources to governmental funds and thus contribute to the change in fund balance. In the Statement of Net Position, however, issuing debt increases long-term liabilities and does not affect the Statement of Activities. Similarly, repayment of principal is an expenditure in the governmental funds, but reduces the liability in the Statement of Net Position. Also, governmental funds report the effect of issuances costs, premiums, discounts, and similar items when debt is first issued, whereas premiums and discounts these amounts are deferred and amortized in the Statement of Activities. The amounts of the items that make up these differences in the treatment of long-term debt and related items are:

Principal repayments	69,025	
Loan proceeds	(519,576)	
Revenue bonds		
Other bonds		
Notes Payable		
Net Change in Long-term Debt		(450,551)

Under the modified accrual basis of accounting used in governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the Statement of Activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of the timing of the related cash flows.

BOROUGH OF CLARION  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2019

NOTE 1: NATURE OF ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Borough of Clarion (the "Borough") operates under the Borough Code under the laws of the Commonwealth of Pennsylvania. The Borough was incorporated in April 1841. The Borough operates under a Council-Manager form of government and provides the following services: public safety, streets, public improvements, planning and zoning, culture and recreation and general administrative services. The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America, ("GAAP") applicable to governmental units, as prescribed by the Governmental Accounting Standards Board ("GASB").

A summary of the Borough's significant accounting policies is as follows:

A) Reporting Entity

The Borough has adopted the provisions of GASB Statement No. 61, "The Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and No. 34" The management of the Borough has determined that there are no entities that should be included as component units.

B) Government-Wide and Fund Financial Statements

The Government-wide financial statements (i.e., statement of net position and the statement of activities) report information on all the non-fiduciary activities of the government as a whole. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which direct expenses of a given function or segment is affected by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1.) Charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2.) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

BOROUGH OF CLARION  
NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
DECEMBER 31, 2019

NOTE 1: NATURE OF ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(CONTINUED)

C) Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Amounts paid to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as expenditures. Proceeds of long-term debt are recorded as liabilities in the government-wide financial statements, rather than as another financing source. Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability rather than an expenditure.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Borough considers revenues to be available if they are collected within 365 days of the end of the current fiscal period with the exception of property taxes which must be received within 60 days of year end to be deemed available. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Licenses, operating grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable only when the Borough receives cash.

Under the current financial resources measurement focus, only current assets and current liabilities are generally included on the balance sheet. The reported fund balance is considered to be a measure of "available spendable resources". Governmental funds operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during the period.

Because of their spending measurement focus, expenditure recognition for governmental fund types exclude amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

Amounts expended to acquire capital assets are recorded as expenditures in the year that resources were expended rather than as fund assets. The proceeds of long-term debt are recorded as an other financing source rather than a fund liability. However, debt service expenditures, as well as expenditures related to compensated absences and claims for judgments, are recorded only when payment is due.

C) Measurement Focus, Basis of Accounting, and Financial Statement Presentation  
(Continued)

The Borough reports the following major governmental funds:

- The General Fund is the primary government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- The Liquid Fuel Fund (Highway Aid) is used to account for financial resources to be used to provide funds and services to maintain the Borough's roads and streets.
- The Recreation Fund is used to account for financial resources to be used to provide funds and services for the Borough's recreation activities such as the Borough's pool.
- The Fire Equipment Fund is used to account for financial resources to be used to provide funds and services for the Borough's Fire Company activities such as the annual contribution of real estate tax millage.
- The Capital Project Fund is used to account for capital projects within the Borough. The Capital Project Fund was created with the proceeds from the sale of the Clarion Area Authority ("CAA") on October 30, 2008. The funds can be used only for projects that benefit the former rate payers of the CAA. As part of the sale agreement, the Borough must allocate annually for the next fifteen years starting in 2009, \$10,000 to be paid to the Fire Company, Borough Library and the Park programs. In 2015 the Borough allocated the balance of the funds and paid directly to the Fire Company, the Library and the balance to set aside at the Borough for the Park and Pool Program.
- The PennVest Grant Fund is used to account for financial resources to be used to provide funds and services related to the PennVest stormwater projects throughout the Borough.

Additionally, the Borough reports the following fund type:

- The Pension Trust Funds account for the revenues (i.e., member contributions, Borough contributions, and net investment income) and the expenses (i.e., contributions refunded, retirement allowances, and death benefits paid) of the Police and General Employees' Pension Trust Funds.

D) Assets, Liabilities, and Net Position or Fund Balances

1. Cash and Cash Equivalents

The Borough considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

2. Receivables and Payables

· Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the year are referred to as "due to/from other funds." Any residual balances outstanding between the governmental activities are reported in the government-wide financial statements as "internal balances." All receivables are shown net of an allowance for doubtful accounts, where applicable.

3. Capital Assets

Capital assets, which include property, plant and equipment and infrastructure assets, are reported in the applicable governmental activities column in the government-wide financial statements. Property, plant and equipment, with initial, individual costs that equal or exceed \$5,000 and estimated useful lives of over one year are recorded as capital assets. Capital assets are recorded at historical costs or estimated historical costs if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. The Borough did not have any intangible assets for the year ended December 31, 2019.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its useful life are not capitalized.

Major outlay of capital assets and improvements are capitalized as projects are completed.

Capital assets are depreciated using the straight-line method over the following intended useful lives:

<u>Asset</u>	<u>Years</u>
Buildings and Improvements	40
Vehicles	5-10
Equipment	5-10

4. Compensated Absences

Borough policy permits employees to accumulate a limited amount of earned, but unused sick time. These benefits are payable to employees upon separation of services. All leave pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported. The computed liability is in compliance with GASB 16, *Accounting for Compensated Absences*.

(CONTINUED)

D) Assets, Liabilities, and Net Position or Fund Balances (Continued)

5. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

6. Deferred Inflows/Outflows of Resources

The Statement of Net Position reports separate sections for deferred outflows and deferred inflows of resources. These separate financial statement elements represent a consumption or acquisition of net position that applies to a future period(s) and so will not be recognized as an outflow or inflow of resources (expense/revenue) until then. The Borough has two items that qualify for reporting in these categories: deferred outflows and inflows related to pensions, and unavailable tax revenue.

Deferred outflows and inflows of resources related to pensions are described further in Note 6. Annual changes to the net pension liability resulting from differences between expected and actual experience with regard to economic and demographic factors and from changes of assumptions about future economic or demographic factors or other inputs are deferred and amortized over a closed period equal to the average of the expected service lives of all employees that are provided with pension benefits determined for the period during which the changes occurred. Differences between projected and actual earnings on pension plan investments are amortized over a closed five-year period.

In the governmental funds balance sheet, the Borough only has one type of item, which arises under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable tax revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenue from property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amount becomes available.

D) Assets, Liabilities, and Net Position or Fund Balances (Continued)

7. Net Position/Fund Balances

The government-wide financial statements utilize a Net Position presentation. Net Position is categorized as net investment in capital assets, restricted and unrestricted.

- *Net Investment in Capital Assets* – This category groups all capital assets into one component of Net Position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance in this category.
- *Restricted Net Position* – This category presents external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- *Unrestricted Net Position* – This category represents net position of the borough not restricted for any project or other purpose.

GASB Statement No. 54 establishes accounting and financial standards for all governments that report governmental funds. It establishes criteria for classifying fund balances into specifically defined classifications and clarifies definitions as follow:

- A. Non-spendable – This classification consists of amounts that cannot be spent because they are either not in spendable form or are legally to be maintained intact.
- B. Restricted - This classification consists of amounts that are restricted to specific purposes. This component of fund balance consists of constraints placed on net asset use through external restrictions, such as constitutional provisions or enabling legislation.
- C. Committed - This classification consists of amounts used for specific purposes imposed by formal actions of the Borough's highest level of decision-making authority (Borough Council). The removal or modification of the use of committed funds can only be accomplished by formal action prior to fiscal year-end by the Borough's highest level of authority.
- D. Assigned - This classification consists of amounts constrained by the Borough to be used for specific purposes that are neither restricted nor committed. The present procedure is for the Borough Manager and Borough Council to jointly assign amounts to be used for specific purposes before issuance of audited financial statements.
- E. Unassigned - This component of fund balance consists of amounts that have not been assigned to other funds and that have not been restricted, committed, or assigned to specific purposes within the General Fund.

D) Assets, Liabilities, and Net Position or Fund Balances (Continued)

7. Net Position/Fund Balances (Continued)

The Borough's policy is to apply expenditures against any restricted fund balance, committed fund balance, assigned fund balance, and then unassigned fund balance. The Borough's policy is to apply expenses against restricted and then unrestricted net position.

8. Interfund Transactions

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions except quasi-external transactions and reimbursements are reported as transfers.

9. Accounting Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual amounts may differ from those estimates.

10. Pending Changes in Accounting Principles

In November 2016, the GASB issued Statement No. 83, "Certain Asset Retirement Obligations". The Borough of Clarion is required to adopt Statement No. 83 for its 2020 financial statements.

E) Budgets and Budgetary Accounting

Legal Requirements

Commonwealth of Pennsylvania statutes require that Borough Governments establish budgetary systems and adopt annual operating budgets. The Borough's annual budget includes the General Fund and certain special revenue funds, and is based on estimates of revenues and expenditures approved by the Borough Council. The Borough adopted the 2019 budget on the same basis of accounting as reported in the financial statements. The Borough follows these procedures in establishing the budgetary data reflected in the financial statements:

Borough Budget Process

1. During the fall, the Borough Secretary/Treasurer prepares a preliminary budget which is submitted to the Council for review.
2. The Council reviews the preliminary projections of revenues and expenditures incorporating any revisions or adjustments.
3. The Council advertised that the proposed budget is available for public inspection for 10 days prior to final adoption.
4. After the 10-day inspection period, but prior to December 31, the Council adopts the final budget by enacting an appropriate resolution.
5. Formal budgetary process is employed as a planning device. The adopted budget is on the modified accrual basis. Budget amounts are as originally adopted, or as amended by the Council.

Level of Control

The Borough maintains budgetary control at the individual fund level.

Lapsing of Appropriations

Unexpended appropriations lapse at year-end.

Management Amendment Authority

During the course of the year, departmental needs may change, emergencies may occur or additional revenue may arise. As a result, funds are transferred between line items of a department's budget or additional revenue may need to be budgeted for a specific project or grant. Adjustments to the budget are made on a line item basis during the year and approved by Borough Council.

NOTE 2: DEPOSIT AND INVESTMENT RISK

The Borough's deposits and investments for both the governmental activities and pension trust funds as of December 31, 2019 were as follows:

Deposits - Governmental Activities	
Cash	\$ 636,602
Investments	
Certificates of Deposits	1,035,917
Fixed Income Accounts	124,086
Total Investments	<u>1,160,003</u>

Mutual Funds - Equity	<u>6,016,643</u>
Total Pension Investments	<u>6,016,643</u>
 Total Pension Cash and Investments	 <u>\$ 6,040,582</u>

The Certificate of Deposits and Fixed Income Accounts had the following debt investments and maturities:

Investment Type	Fair Value	Investment Maturities (in Years)	
		Less Than 1	1-5
Certificates of Deposit	\$ 1,035,917	\$ 262,507	\$ 773,410
Fixed Income Accounts	124,086	<u>10,489</u>	<u>113,597</u>
 Total	 <u>\$ 1,160,003</u>	 <u>\$ 272,996</u>	 <u>\$ 887,007</u>

*Interest Rate Risk.* The Pension Funds Investment Policies do not have a formal investment policy that limits investment maturities as a means of managing their exposure to fair value losses arising from increasing interest rates.

*Credit Risk.* The Pension Funds Investment Policies do not have a formal investment policy that limits these funds credit risk.

As of December 31, 2019, the Pension investments in fixed income mutual funds were not rated by Standard & Poor's.

*Custodial Credit Risk.* For deposits and investments, excluding the pension funds, custodial credit risk is the risk that in the event of the failure of the counterparty, the Borough will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Total deposits held by outside parties at December 31, 2019 were \$1,803,255 with a book value of \$1,796,605. Of the Borough's \$1,803,255 in deposits, \$1,303,255 were exposed to custodial credit risk, as they were uninsured and uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with *securities* held by the pledging financial institution's trust department or agent but not in the Borough's name. The Borough does not have a formal investment policy related to custodial credit risk.

NOTE 3: FAIR VALUE MEASUREMENTS

The Borough categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Borough has the following recurring fair value measurements as of December 31, 2019:

Certificates of Deposit - Valued using quoted market prices (Level 1 inputs)

Mutual Funds - Valued using quoted market prices (Level 1 inputs)

Fixed Income Funds - Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yield currently available on comparable securities of issuers with similar credit ratings. (Level 1 inputs)

The following table summarizes the assets of the Borough for which fair values are determined on a recurring basis as of December 31, 2019:

NOTE 4: REAL ESTATE TAXES

Real estate taxes attach as an enforceable lien on property on January 1. Taxes are billed on March 1, payable under the following terms: 2% discount, March 1 based on the assessed value listed as of the prior December 31 for the real property located in the Borough through April 30; face amount, May 1 through June 30, and 10% penalty after June 30. The County bills these taxes which are collected by an elected local tax collector and remitted to the Borough. Real estate taxes levied for 2019 are recorded as receivables, net of estimated uncollectible taxes. The net receivables collected during 2019 and expected to be collected within the first sixty (60) days of 2020 are recognized as revenue in 2019. Net receivables estimated to be collectible subsequent to March 1, are reflected in unearned revenue. Prior years levies are recorded using these same principles and remaining receivables are annually reevaluated as to their collectability.

The rate of real estate taxation in 2019, was 17.095 mills for general purposes, 0.975 for the library, 1.630 for fire equipment, 1.100 for street lights, 0.500 mills for recreation, and 0.700 mills for recycling fund purposes on a total Borough assessed valuation of \$39,930,564.

NOTE 6: EMPLOYEES RETIREMENT PLANS

A. Pension Trust Funds

Plan Description

The Borough sponsors two single employer defined benefit plans covering substantially all full-time employees. Employees become eligible for participation in a plan upon employment and become fully vested after twelve years of service in the Police Pension Plan and ten years of service in the General Employees' Pension Plan. The Police Pension Plan was established by municipal ordinance with the authority for municipal contributions required by Act 205, of the Pennsylvania legislature. The General Employees' Pension Plan was established December 28, 1959. The Employee Pension Plan was updated in 2019 and is controlled by Ordinance No. 2019-832.

At December 31, 2019, participants in the plans are as follows:

Participants:	<u>General Employees'</u>	<u>Police</u>
Retirees and beneficiaries	5	8
Terminated employees entitled to benefits but not yet receiving them	2	1
Active employees	<u>9</u>	<u>8</u>
Total	<u>16</u>	<u>17</u>

For both Plans, the Borough is required to make annual contributions based upon the Minimum Municipal Obligation using each Plans' most recent biennial actuarial evaluations, as prescribed by Act 205 of 1984 (as amended). General employees are required to contribute 5%, as governed by the General Employees' Pension Plan's governing ordinances. Police employees are required to contribute 5% as governed by the Police Pension Plan's governing ordinances and collective bargaining. In 2019 Council by resolution required General Employees to Contribute 2.5% and the Police Contribution 0%.

NOTE 6: EMPLOYEES RETIREMENT PLANS

A. Pension Trust Funds (Continued)

Plan Description (Continued)

The benefits provided by the plans differ by employment group and are based upon average monthly compensation, age and length of service. A summary of benefit provisions, by employee group, is as follows:

	<u>General Employees'</u>
Normal retirement age	Age 60 and 15 years of service
Early retirement	Age 55 and 15 years of service
Vesting	100% after completion of 10 years of service
Retirement benefits	Monthly benefit equal to 2.0% of total pay averaged over the final 36 months of employment, multiplied by years of service
Early benefit	Normal retirement benefit based on credited service to date is payable at normal retirement date. Benefits may commence early, but will be reduced by .5% for each month prior to normal retirement date
Death benefit	Before 10 years of service – refund of contributions plus interest  After 10 years of service but before retirement – participant's spouse will receive the survivor portion of the participant's accrued benefit converted to a joint and 100% survivor annuity. For non-collectively bargained participants without a spouse or if the spouse renounces the survivor benefit, the beneficiary shall be entitled to the participant's accrued benefit for 120 months  After retirement – normal form of payment is a life annuity with 120 payments guaranteed. At retirement, participant may select on optional form of benefit payment that is an actuarial equivalent of the normal form
Disability benefit	For service related or non-service related, upon total and permanent disablement occurring prior to early or normal retirement, and qualification for social security disability benefits, the accrued benefit is payable until normal retirement date and life thereafter
Cost-of-living adjustment	Effective on each anniversary of retirement, a retiree who retired on or after January 1, 2003 will receive an increase in the monthly benefit equal to the change in the Consumer Price Index during the last year multiplied by the pension benefit. The total of all increases may not exceed 30% of the retiree's original benefit
Vesting benefit	Participant will receive the prospective normal retirement benefit using credited service to date, multiplied by the vested percentage, payable at the normal retirement date

NOTE 6: EMPLOYEES RETIREMENT PLANS (CONTINUED)

A. Pension Trust Funds (Continued)

Plan Description (Continued)

	<u>Police</u>
Normal retirement	Age 50 and 25 years of service
Early retirement	20 years of service
Vesting	100% after completion of 12 years of service
Retirement benefits	Monthly benefit equal to 50% of gross pay averaged over the last 36 months of employment, plus a service increment of \$20 for each year of service in excess of 25 years, up to a maximum of \$100
Early benefit	Accrued benefit at actual retirement, payable at normal retirement. Benefit may be elected immediately, but will be reduced by actuarial equivalent factors for each month early
Death benefit	Before vesting – refund of contributions plus interest  After retirement or vesting – monthly benefit equal to 50% of the pension the participant was receiving or was entitled to receive on the day of the participant's death. The monthly survivor benefits are payable to the participant's spouse for life. If there is no spouse, or the spouse later dies, the benefit will be paid to the participant's dependent children, if any, until age 18, or age 23 if attending college
Disability benefit	For service-related, 50% of the final monthly average salary at disablement/retirement, but no less than 50% of the member's salary at the time the disability was incurred, offset by social security disability benefits for the same injury. No non-service related benefits offered
Post-retirement adjustment	Effective on each anniversary of retirement, a retiree will receive an increase in the monthly benefit equal to the percentage increase in the Consumer Price Index during the last year (with a maximum annual increase of 6%). The total of all increases may not exceed 30% of original benefit, nor may total benefit exceed 75% of the average monthly salary used to calculate the original benefit
Vesting benefit	Accrued benefit at date of termination payable monthly starting at normal retirement date

B. Funding Status and Progress

The amount presented below as "pension assets" is the actuarial present value of accumulated plan benefits, adjusted for the effect of projected salary increases, and is intended to assist users of this information in assessing the plan's funding status on a going concern basis and the progress made in accumulating sufficient assets to pay when they become due. The measurement of the pension obligations is the actuarial present value of credited projected benefits and is independent of the funding method used to determine contributions.

## NOTE 6: EMPLOYEES RETIREMENT PLANS (CONTINUED)

B. Funding Status and Progress (Continued)

The pension assets, which are actuarially determined on a biannual basis, have been calculated as of January 1, 2019. Significant actuarial assumptions used include a rate of return on the investment of present and future assets of 7.25% per year compounded annually and projected salary increases of 4.75% (5.0% for the police plan) per year compounded annually. The actuarial cost method used is the entry age normal cost method. As of December 31, 2019, with the pension liability determined by an actuarial valuation as of January 1, 2019, and rolled forward to the reporting date using the significant actuarial assumptions noted above, the General Employees' Pension Plan was 101.1% funded and the Police Pension Plan was 118.6% funded.

**Police Pension Plan Actuarial Methods and Assumptions**

Actuarial Assumptions: The total pension liability was determined by an actuarial valuation as of January 1, 2019 and rolled forward to the reporting date using the following significant actuarial assumptions applied to all periods included in the measurement:

Inflation:	2.75%
Salary increases:	5.0% including inflation
	Mortality: RP-2014 mortality with 50% of the Blue Collar adjustment and mortality improvement based on the Long-Range Demographic Assumptions for the 2015 Social Security Administration's Trustee Report. Rates set forward 5 years for disabled members

**Investments**

Investments in the plan are managed by Wells Fargo. Investments are recorded at fair value based on quoted market prices.

*Investment policy.* The pension plan's policy in regard to the allocation of invested assets is established and may be amended by Borough Council by a majority vote of its members. It is the policy of Borough Council to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy utilizes a combination of actively and passively managed asset classes. Actively managed asset classes shall be managed with the objective to provide incremental returns relative to the appropriate market benchmarks. Passive strategies shall be managed with the objective of replicating the return of the appropriate benchmark. The following was the Police Pension Plan's adopted asset allocation policy as of December 21, 2011:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Range</u>
Equities	60.00%	40%-70%
Fixed Income	40.00%	30%-60%
Cash	0.00%	0%-15%
	<u>100.00%</u>	

The long-term expected rate of return on pension plan investments was determined using a building-block method in which the best-estimate ranges of expected future real rates of return (expected returns, net of inflation and investment expenses not funded through the MMO) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in the target asset allocation as of December 31, 2019 are summarized in the following table:

<u>Asset Class</u>	<u>Long Term Expected Real Rate of Return</u>
Equities	5.0% to 7.0%
Fixed Income	1.0% to 3.0%
Cash	0.0% to 1.0%

*Discount rate.* The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made equal to the Minimum Municipal Obligation. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

*Sensitivity of the net pension liability to changes in the discount rate.* The following shows the effect of a 1% change in the discount rate on the net pension liability:

	<u>1% Decrease (6.25%)</u>	<u>Current Rate (7.25%)</u>	<u>1% Increase (8.25%)</u>
Borough's Net Pension Liability	\$ (217,406)	\$ (666,622)	\$ (1,039,331)

**General Employees' Pension Plan (Defined Contribution)**

Plan Description

The Borough of Clarion General Employees' Pension Plan is a single-employer defined contribution pension plan. The Plan was established effective December 28, 1959. The Plan was amended and restated by Ordinance 2019-832 effective January 1, 2019. The Plan is governed by the Borough Council, which may amend plan provisions, and which is responsible for manage of Plan assets. The Borough Council has delegated the authority to manage certain Plan assets to Wells Fargo Advisors.

At December 31, 2019, participants in the defined contribution plan is as follows:

	General Employees'
Participants:	
Retirees and beneficiaries	-
Terminated employees entitled to benefits but not yet receiving them	-
Active employees	4
Total	4

A summary of benefit provisions is as follows:

Normal retirement	Age 60 and 15 years of service
Early retirement	Age 55 and 10 years of service
Vesting	100% after 10 years of service
Retirement or disability benefits	Fair market value of participant's account paid as a lump sum
Survivor benefit	If participant dies while actively employed by Borough, participant's account shall become 100% vested, and shall be payable to his/her beneficiary

Active members of the plan are not required to contribute to the plan. The municipality is required to contribute 5.5% of each eligible participant's total compensation. Effective January 1, 2019, contributions ceased and defined contribution participants were transferred to the defined benefit plan.

NOTE 7: COMPENSATED ABSENCES

Vacation and personal days may not be accumulated from year to year, except:

- Police employees may roll over up to one week of vacation time, which must be used by June 30 of the following year, and
- Public works employees and certain office staff may roll over up to one week of vacation time, which must be used by June 1 of the following year.

All Borough employees earn 1.5 sick days per month worked, for a maximum of 18 days per year. The total that employees covered under the Teamster contract (general employees) and office staff may accumulate is a maximum of 180 sick days. Police employees may accumulate up to a maximum of 150 days.

At the end of each calendar year, each non police officer employee has the option to receive payment of \$40 per day of his/her unused sick days, up to 18 days annually. A police officer has the option to receive payment of \$75 per day of his unused sick days up to 18 days annually. At retirement any employee may sell back accumulated unused sick leave up to the maximum amount. At December 31, 2019, the total liability for compensated absences was \$89,328. In 2019, the sick leave liability increased \$10,584.

Applicable GASB pronouncements require accrual of sick pay that met certain specific conditions. The Borough has determined that such conditions apply to accumulated sick pay of Governmental Funds. To the extent sick pay liabilities in Governmental Funds are to be liquidated with available resources, they are accounted for as fund liabilities in the Fund Financial Statements; the remainder of the obligation is accounted for as a liability in the Government-wide financial statements.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
DECEMBER 31, 2019

NOTE 11: LITIGATION

In the normal course of business, there are various claims and suits pending against the Borough and its elected officials. Management is of the opinion that these matters will not have a material adverse effect on the Borough's financial position at December 31, 2019.

NOTE 12: LEGAL COMPLIANCE

For the year ended December 31, 2019, the Liquid Fuel Fund's total expenditures exceeded total appropriations by \$33,624 or 25.6%. Additional revenues earned and fund balance used in the current year provide the funds for those over expenditures.

NOTE 13: SUBSEQUENT EVENTS

During January 2020, the Borough issued a Tax and Revenue Anticipation Note with a financial institution in the aggregate principal amount of \$300,000 at a fixed interest rate of 1.74%.

Subsequent to year end, a global pandemic due to the spread of the COVID-19 coronavirus caused the United States government to declare a national emergency. The pandemic has led to widespread voluntary and government-mandated closings of local stores and businesses, which has resulted in significant job losses. These job losses have the potential to have a significant impact on all aspects of the Borough's operations. In addition, due to the temporary closure of all businesses that are not deemed life sustaining, State and Federal tax revenues are also significantly decreased. This decrease could result in less grant money that is relied upon by local municipalities to fund specific projects. In addition, the Borough's own source revenue or derived revenues could be affected negatively. Overall, decreased funding could result in the Borough having to curtail or eliminate some services.
